Rush Pikes Peak Soccer Club offers a unique program called the Tutor Program, providing the opportunity for any player to train with any team in the Rush. One of the main components to becoming a great player is quite simple: hard work. Hard work equates to hundreds of hours striving towards a goal you have established. Dedication to a personal goal is imperative to your growth and eventually your success.

Every day there are hundreds of teams training. Thousands of players are reaching for the top to someday play professionally or perhaps even for their country. You have every opportunity to train as much as you desire. There are no excuses or obstacles other than the ones you create.

Below is the contact information for all the boys and girls teams if you are interested in extra training. Please call the head coach to find out the status of future training dates times and locations. Team coaches are all aware of this program and will be willing to work with any player that is interested.

Please always check the Rush Pikes Peak website before heading out to the fields to check if the sessions are still on.

For players interested in training with the Colorado Rush based in Denver please click here for contact information.
