

The Player Loan Program is a Rush Soccer interclub player exchange opportunity that allows players from other Rush Soccer Branch Chapters to experience playing with other teams all over the country. Its goal is to provide numerous opportunities for our members in order to facilitate and guide their development as well as helping them to achieve their individual goals and dreams.

Players would be able to take advantage of playing opportunities with teams in other regions of the country. They could play in events that their team may not be able to participate in. Players will be able to play at higher competitive levels, be exposed to regional or national staff, travel regionally, nationally or internationally as well as experience different playing styles, coaching, cultures and traditions.

Coaches would be able to form competitive teams that would compete in high level national events. They would have options and opportunities to expose their players into events that logistically, financially or for personnel reasons would be difficult to achieve within their own teams or clubs.

Players would sign up for the program by filling out the form provided on the web site and the system would alert the staff director responsible for the age group and team coach.

Players then will be contacted by the appropriate coach and/or team manager in order to logistically plan for the trip.
